

## J.A.M. CHRISTIAN DAYCARE

Partnering with Parents to Develop the Whole Child

Dear Parents,

We would like to share our logo that illustrates our vision and goals as we partner with parents to develop the whole child. This logo serves to help communicate our vision as we work to become known in the community and expand our daycare to include new families.

We partner with parents who entrust us with their child. We have done this for years by communicating with parents and working side by side. We plan to expand on this partnership with parent/teacher conferences, family field trips and parent nights.

Development of the whole child is emphasized at J.A.M. Daycare. In alignment with standards and objectives approved by Pennsylvania, children are given experiences in all developmental areas. Indoor and outdoor activities expand the knowledge base while we give opportunities for all developmental levels to be worked on from fine motor to gross motor, from social and emotional to cognitive and academic. Through play, children are introduced to many concepts and avenues that provide a solid foundation for future education. As we watch children grow and learn, it is exciting to see them prepare for success in kindergarten, school and life. We plan to continually expand upon what we have done in the past with well planned classrooms and balanced schedules. Curriculum and assessments will be a part of each class. The goal of continual improvement is the development of the whole child.

As a Christian daycare, we have the unique opportunity to teach your child a Biblical worldview. Children are able to learn about God as they explore the world around them. Teachers show God's love as we work towards physical, academic, emotional, social and spiritual growth.

We are excited to provide care for your family and invite you to share our program with others.
